

Cautious (0–40% Equity) Higher Income

Lower Risk

Higher Risk

Cautious (0–40% Equity) portfolios are intended for clients where a degree of equity risk is appropriate through an investment cycle, but where the longer-term preservation of capital is of primary importance. The portfolio will be managed with an asset allocation and risk profile consistent with a Dynamic Planner Fund Risk Profile of 4. You should be looking to invest for at least 3 years. The objective of this portfolio is to provide returns primarily from income.

Lower Risk

Higher Risk

Moderate (40–60% Equity) portfolios are intended for clients seeking returns in excess of inflation, typically with an equity content of close to 50%. These returns are not to the exclusion of the longer-term preservation of capital. The Portfolio value will tend to rise and fall with equity markets, but to a lesser degree. The portfolio will be managed with an asset allocation and risk profile consistent with a Dynamic Planner Fund Risk Profile of 5. You should be looking to invest for at least 5 years. The objective of this portfolio is to provide returns primarily from income.
