

MI HAWKSMOOR GLOBAL OPPORTUNITIES FUND

31st March 2021

FUND INFORMATION

Investment Objective

The investment objective of the Fund is to provide capital growth.

Investment Policy

The Fund's portfolio will consist primarily of a diversified range of open and closed ended funds. The portfolio will be actively managed, with the Investment Manager seeking to take advantage of inefficiencies in the pricing of closed ended funds and significant movements in financial markets. These global opportunities will be unconstrained by region or sector and may be volatile in the short term. Through its investments in these collectives, the portfolio will be exposed to a range of asset classes (such as equities, bonds, property and commodities), underlying currencies, geographic spread and funds managed by a variety of fund management groups and style of investment manager.

Investment Outcome

The Fund's primary aim is to deliver returns, after charges, in excess of general markets over the long term (defined as rolling periods of 5+ years). In order to achieve this, the managers will invest in a variety of financial assets, using collectives to invest in long term structural growth themes, together with exploiting inefficiencies in the closed-ended sector – i.e. investment trusts trading at a discount. The portfolio will be fully invested and whilst diversified, it will have a minimum exposure to equities of 60%. It is therefore likely that investors will see fluctuations in the value of their investment over the short term, so they need to share the managers' long term perspective in order to increase the likelihood of superior long term total returns.
