EQUITY RISK
(80–100% Equity)

Cautious (0–40% Equity) portfolios are intended for clients where a degree of equity risk is appropriate through an investment cycle, but where the longer-term preservation of capital is of primary importance. The portfolio will be managed with an asset allocation and risk profile consistent with a Dynamic Planner Fund Risk Profile of 4. You should be looking to invest for at least 3 years. The objective of this portfolio is to provide returns from a combination of income and capital growth within this risk mandate.

PERFORMANCE (as at 31/08/23)

	3 months	1 Year	3 years	5 years	Since inception 22/04/2010
Hawkmoor Cautious (0-40% Equity) Portfolio	1.1	0.1	3.9	7.0	74.9
<i>ARC Sterling Cautious</i>	0.7	-0.6	0.8	5.6	40.6

Discrete Annual Calendar	2023 (YTD)	2022	2021	2020	2019
Hawkmoor Cautious (0-40% Equity) Portfolio	2.3	-7.9	7.3	1.8	7.5
<i>ARC Sterling Cautious</i>	1.1	-8.8	4.2	4.2	8.1

ALL MODEL PORTFOLIOS ARE AVAILABLE ON THE FOLLOWING PLATFORMS: Aegon Retirement, Ascentric, Aviva, Novia, Quilter, Standard Life Wrap, Transact

The performance shown is since launch (22/04/2010) on one of the platforms on which the portfolio was first available and there may be small variations in the asset allocation and past performance of the portfolio between platforms. Performance figures and charts sourced from FE fundinfo (total return, bid to bid, excluding fund rebates and excluding fees applied by the platform and adviser, but including Hawkmoor's fees without the VAT). These figures refer to the past and past performance is not a reliable indicator of future results.

A central model is created for each of our model portfolios, where the performance summary, asset allocation, fund holdings, charges and yield quoted on this factsheet are based on the central model portfolio. Where the central model is replicated, such as through a platform, any individual portfolio is unlikely to be identical to that of the central model as a result of the timing of the investment or any restrictions of the platform provider. Where a fund is not available on a platform, a suitable alternative is chosen. There may be some circumstances when certain investments (e.g. property funds) may not be readily realisable and investors may experience difficulty in selling the investment or in obtaining reliable information as to its value.

The Hawksmoor Model Portfolio Service is managed by:

Richard Philbin
CIO-Investment Solutions

Kishan Raja
Assistant Portfolio Manager

(40–60% Equity)

ADVENTUROUS
(60–80% Equity)

EQUITY RISK
(80–100% Equity)

Moderate (40–60% Equity) portfolios are intended for clients seeking returns in excess of inflation, typically with an equity content of close to 50%. These returns are not to the exclusion of the longer-term preservation of capital. The Portfolio value will tend to rise and fall with equity markets, but to a lesser degree. The portfolio will be managed with an asset allocation and risk profile consistent with a Dynamic Planner Fund Risk Profile of 5. You should be looking to invest for at least 5 years. The objective of this portfolio is to provide returns from a combination of income and capital growth within this risk mandate.
