

MI HAWKSMOOR DISTRIBUTION FUND

30th November 2023

The Fund's primary aim is to deliver an attractive level of income, whilst also delivering capital growth over the medium to long term (defined as rolling periods of 3-5 years). To achieve this the managers will aim to ensure the Fund's yield will always be at a premium to a composite index of financial asset classes (equities, bonds, property and cash).

FUND INFORMATION

Investment Objective

The investment objective of the Fund is to provide income with the prospect of capital growth.

Investment Policy

The Fund's portfolio will consist primarily of a diversified range of open and closed ended funds. The portfolio will be actively managed, with the Investment Manager seeking to take advantage of inefficiencies in the pricing of closed ended funds and significant movements in financial markets. Through its investments in these collectives, the portfolio will be exposed to a range of asset classes (such as equities, bonds, property and commodities), underlying currencies, geographic spread and funds managed by a variety of fund management groups and style of investment manager.

Investment Outcome

The Fund's primary aim is to deliver an attractive level of income, whilst also delivering capital growth over the medium to long term (defined as rolling periods of 3-5 years). In doing this the managers will aim to ensure the Fund's yield will always be at a premium to a composite index of financial asset classes (equities, bonds, property and cash). The intention is to increase the distribution alongside capital growth in order to maintain an attractive distribution yield for new and existing investors. In striving to achieve these targets, the managers invest in a variety of financial assets which can be volatile. They will seek to mitigate this volatility by ensuring a diversified portfolio of assets, each of which shares the common characteristics of a margin of safety and low intra-asset correlations.
