There may be small variations in the yield, costs, and past performance of the portfolio between platforms due to share class and fund availability, and because of the timing of the trading. Performance data sourced from Morningstar (total return, bid to bid, excluding fund rebates). Performance figures excluding fees applied by the platform, adviser, and Hawksmoor. The addition of these fees would have an impact on performance. These figures refer to the past and past performance is not a reliable indicator of future results.

There may be small variations in the holdings and asset allocation of the portfolio between platforms due to share class and fund availability. Where a fund is not available on a platform, a suitable alternative is chosen. There may be some circumstances when certain investments (e.g. property funds) may not be readily realisable and investors may experience difficulty in selling the investment or in obtaining reliable information as to its value. The values may not equal 100 due to rounding.
