

Hawksmoor Cautious Core (0-40% Equity)

As of 31/07/2025

Objective

Cautious (0–40% Equity) portfolios are intended for clients where a degree of equity risk is appropriate through an investment cycle, but where the longer-term preservation of capital is of primary importance. The portfolio will be managed with an asset allocation and risk profile consistent with a Dynamic Planner Fund Risk Profile of 4. You should be looking to invest for at least 3 years. The objective of this portfolio is to provide returns from a combination of income and capital growth within this risk mandate.

Performance (since inception)

Cumulative Performance

	3 Months	1 Year	3 Years	5 Years	Since Inception
Hawksmoor Cautious Core	4.82	7.36	17.49	23.63	105.66

ARC Sterling Cautious	3.64	4.57	3.68	-7.60	4.23

There may be small variations in portfolio yield, costs and past performance of the portfolio between platforms due to share class and fund availability, and because of the timing of the trading. Performance data sourced from Morningstar (total return, bid to bid, excluding fund rebates, and excluding fees applied by the platform and adviser, but including Hawksmoor's fee). These figures refer to the past and past performance is not a reliable indicator of future results.

Equity Region Exposure Breakdown

There may be small variations in the holdings and asset allocation of the portfolio between platforms due to share class and fund availability. Where a fund is not available on a platform, a suitable alternative is chosen. There may be some circumstances when certain investments (e.g. property funds) may not be readily realisable and investors may experience difficulty in selling the investment or in obtaining reliable information as to its value. The values may not equal 100 due to rounding.

Hawksmoor Moderate Core (40-60% Equity)

As of 31/07/2025

Objective

Moderate (40–60% Equity) portfolios are intended for clients seeking returns in excess of inflation, typically with an equity content of close to 50%. These returns are not to the exclusion of the longer-term preservation of capital. The portfolio value will tend to rise and fall with equity markets, but to a lesser degree. The portfolio will be managed with an asset allocation and risk profile consistent with a Dynamic Planner Fund Risk Profile of 5. You should be looking to invest for at least 5 years. The objective of this portfolio is to provide returns from a combination of income and capital growth within this risk mandate.
