FUND INFORMATION

Investment Objective (See Prospectus)

The investment objective of the Fund is to provide capital growth.

Investment Policy (See Prospectus)

The Fund's portfolio will consist primarily of a diversified range of open and closed ended funds. The portfolio will be actively managed, with the Investment Manager seeking to take advantage of inefficiencies in the pricing of closed ended funds and significant movements in financial markets. These global opportunities will be unconstrained by region or sector and may be volatile in the short term. Through its investments in these collectives, the portfolio will be exposed to a range of asset classes (such as equities, bonds, property and commodities), underlying currencies, geographic spread and funds managed by a variety of fund management groups and style of investment manager.

Investment Outcome (Hawksmoor's own guidance)

The Fund's primary aim is to deliver capital growth, after charges, in excess of general markets over the long term (defined as rolling periods of at least 5 years). In order to achieve this, the managers will invest in a variety of financial assets (with a minimum exposure to equities of 60%), which can be volatile.
