

Wellian (HIS) High Income

As of 31/03/2026

A range of portfolios designed and managed by the Investment Solutions team at Hawksmoor Investment Management.

Investment Objective

The High Income model aims to generate a high level of income for investors who are willing to accept a medium level of risk by investing across global markets into a range of asset classes but will predominantly invest in high yielding assets. Equity exposure within this portfolio will not exceed 60%. The portfolio's benchmark is the IA Mixed Investment 20-60% Shares Sector.

There may be small variations in the yield, costs, and past performance of the portfolio between platforms due to share class and fund availability, and because of the timing of the trading. Performance data sourced from Morningstar (total return, bid to bid, excluding fund rebates). Performance figures excluding fees applied by the platform, adviser, and Hawksmoor. The addition of these fees would have an impact on performance. These figures refer to the past and past performance is not a reliable indicator of future results.

Asset Allocation

Equity Region Exposure Breakdown

There may be small variations in the holdings and asset allocation of the portfolio between platforms due to share class and fund availability. Where a fund is not available on a platform, a suitable alternative is chosen. There may be some circumstances when certain investments (e.g. property funds) may not be readily realisable and investors may experience difficulty in selling the investment or in obtaining reliable information as to its value. The values may not equal 100 due to rounding.
